HOUSING AND HEALTH TO END HOMELESSNESS
Mission Statement

The Downtown Emergency Service Center (DESC) works to end the homelessness of vulnerable people, particularly those living with serious mental illnesses or substance use disorders. Through partnerships and an integrated array of comprehensive services, treatment and housing, we give people the opportunity to reach their highest potential. At DESC, uncommon efforts produce uncommon results that eliminate homelessness one person at a time.

Housing First practice is built on the idea that housing is a human right, and that once the chaos of homelessness is eliminated from a person’s life, clinical and social stabilization occur faster and are longer-lasting.

DESC is a national pioneer, innovator, and leader in the Housing First movement, which is now the dominant service approach promoted in national policy.

1,334 people in supportive, stable homes operated by DESC

Our next supportive housing building will open in North Seattle in early 2019. It will be home to 99 formerly homeless people living with disabilities.

Photo courtesy of William Wright Photography and SMR Architects
75% of our clients receive support from more than one program at DESC.
We just opened our newest supportive housing building, The Estelle, in February 2018. The people we serve have serious health conditions, and most have very little access to care. The Estelle was designed from the ground up to bring healthcare to those who need it most, right where they live.

Working in partnership with Harborview Medical Center, we designed a primary care health clinic inside The Estelle. Healthcare professionals provide primary care to all building tenants. Fifteen apartments in the building are reserved for people exiting the hospital after long stays who require permanent supportive housing to sustain independent living for the long-term.
Healing and Hope

For 35 years, we’ve partnered with Harborview Medical Center and their Pioneer Square Clinic to site a full-time registered nurse in our Main Shelter. “Nurse Mary,” (Mary Pilgrim, R.N.) served in this capacity for over 20 years, until her retirement in 2017. Nurse Mary provided compassionate care to people staying in the shelter, attending to physical needs such as major chronic conditions and life-threatening crises to minor injuries, seasonal illnesses, and foot and skin problems. She also counseled shelter clients about chronic disease management, particularly around diabetes, and cardiovascular and respiratory conditions.

In 2016, DESC received a generous grant from the Pacific Hospital Public Development Authority to expand our nursing capacity in the shelter. A nurse practitioner meets Nurse Mary provided healthcare for shelter guests for more than 20 years before retiring in 2017. continued on page 9
the growing need for primary care services for people experiencing homelessness and living with serious and persistent mental illnesses and substance use disorders. This grant helped us nearly double our capacity for primary care visits, and significantly reduce expensive emergency room visits and the inevitable bigger health problems that result from not treating physical issues early and appropriately.

To accommodate these new staff, DESC completed a truly transformational renovation — turning the former indoor smoking room in our Main Shelter into a place of healing and health. Three donors - Amerigroup Washington, the Garneau-Nicon Foundation, and the Foster Foundation - stepped up and contributed a total of $85,000 for the renovation.

The new space is named “Nurse Mary’s Clinic” in honor of her many years of service to DESC clients. Mary retired in 2017, but her legacy lives on in the expanded services that are now available.

Thanks to generous donors, the main shelter will help even more homeless people receive vital healthcare.
In July 2017, we opened the Navigation Center in collaboration with the City of Seattle and OSL (formerly Operation Sack Lunch). The Navigation Center is a unique model for shelter in which the physical space accommodates engagement, barriers are kept very low and guests have access to intensive case managers on-site to help them identify goals and next steps to end their homelessness.

In the six months it was open last year, the Navigation Center

Served 127 people

Linked 32 people to housing

Provided 16 pets with shelter
“Kim” arrived at the Navigation Center on the first day it opened. She became homeless in 2014 when her friend passed away. As an avid collector of items, the restrictions around possessions and theft of belongings that are common in most shelters deterred Kim from staying indoors. She lived in “The Jungle” for over two years and survived violence and isolation there.

When she arrived at the Navigation Center, Kim’s vast belongings were a major challenge. Like many unsheltered people, especially women, accumulation of belongings acted as a buffer on the street and helped protect her from predation. In the shelter, constant and continuous accumulation of belongings caused discord with other guests and created new stressors for Kim. At the Navigation Center, staff helped her address this and get it under better control. After changes to her assigned bed, utilization of additional storage space, staff collaboration and some compromise from Kim, the Navigation Center was able to provide a safe space for a guest who otherwise would have remained outdoors. Kim moved into her new apartment in October 2017.

Navigating Home

This mural in the lobby of DESC’s Navigation Center was designed by Eighth Generation, a local studio run by Louie Gong. It was printed and installed with support from The Color Group, Pro Art Framing, and the Wing Luke Museum.
Last year marked the fifth anniversary of the Crisis Solutions Center (CSC) program. It’s a common occurrence when people in the community have a psychiatric or other behavioral health crisis for them to come to the attention of police or fire units. Often the crisis can be resolved without taking the person to jail or the hospital, but prior to the Crisis Solutions Center, first responders didn’t have better options. Now they can refer or bring a person in crisis to the CSC where DESC staff (nurses, doctors, social workers, SUD specialists, peer specialists and others) can provide supportive care.

continued on page 13
2,965 people served by the Crisis Solutions Center

3,643 referral calls made to the Mobile Crisis Team

including licensed behavioral healthcare services. Most of those served are homeless; DESC staff provide trauma informed care in working with them on securing housing and any ongoing services they may need to thrive.

The program also includes a Mobile Crisis Team (MCT). MCT staff respond 24/7 to referrals from Fire and Police units across King County. They work in the community to help resolve crises, often by referring the person to the residential portion of the CSC for brief stabilization services. In 2017, the MCT responded to 3,643 referrals – an average of 10 calls every day.
The Supported Employment Program provides assessment, training, and placement of clients in jobs that match that client’s specific skill set. For the duration of the client’s employment, specialists and case managers are available to provide additional coaching and support, and work directly with employers to help clients be successful.

1,469 people served by Connections

133 people served by the Supported Employment Program
Survival Services

The best intervention for a person experiencing homelessness is permanent affordable housing. As we work to create a city where enough housing is available, emergency shelters save lives by providing shelter and safety, and by creating links to other services. As long as the lack of affordable housing means our clients are left outside unprotected, we’ll continue to shelter them until that housing is available.

97.7% usage of shelter beds*

The utilization across King County is 90%

*Except CRP, CDIS, or CDF which require special referrals.

117,651 meals served

159,071 bed nights of shelter provided

45 doses of Naloxone administered
Housing First, but what comes second? A qualitative study of resident, staff and management perspectives on single-site housing first program enhancement

In the fall of 2017, DESC held petition events, phone banks, and other advocacy efforts to support the renewal and expansion of the King County Veterans, Seniors and Human Services levy. These much-needed funds support veterans, seniors, and other vulnerable populations in accessing and keeping housing, employment, and other crucial services.

DESC was also involved in multiple city-organized coalitions, including the Progressive Revenue Task Force and a human service wage work group.

We’re grateful for the partnership of SEIU 1199NW, our employees union, in conducting this important work. Through this partnership, we unite our complementary strengths to improve funding and support for vital community services and housing. We develop joint strategic projects in public policy advocacy and action.
In-Kind Gifts

Last year, you donated $894,735 in food, clothes, furniture, and so much more. The amount of joy and comfort provided to our clients by these items, however, is priceless.
In-Kind Gifts

Coffee plays a key role in some of our programs. Between the coffee counter at the main shelter, the kitchens in all our housing buildings, and keeping staff supplied, we go through a lot!

We were able to deliver **42,000** disposable cups across the agency.

The total value of the delivery was more than **$11,300**!
Thank You, Volunteers

Last year, 634 volunteers donated more than 23,700 hours of time across DESC’s programs – that means each volunteer donated an average of 37 hours, almost a full work week.

Value of volunteer hours to DESC: $573,572*
